**Subject:** Recommendation for Ozair Construction:

**To whom it may concern**

Dear Sir/Madam,

It is our pleasure to introduce and write a review on Ozair Construction (OC).

I had purchased a house recently (before ~ 5 months) and needed some remodeling work for that house. I found OC online through 'service magic' and contacted them. Initially, I told them that I have a small project. This is regarding changing the floor. I found that Ron was extremely helpful in searching materials, suggesting good materials and in my budget and choice. We had lot of issues to finish the floor project. He had possible solution for everything. He had a 'no problem' and 'it would be done' attitude with a smile on face that gave us confidence and made our worries gone. He made things work unexpectedly smoothly.

The most interesting thing is that, I have a very tough schedule at work. I could hardly find time to meet anyone or do anything in my working hours. Ron knows **how to make things work**. He came whenever I needed or, I could meet him. He knows a best '**time-management**' too.

He helped me beyond I expected. He picked up things from Home-depot for my house (even in late hours after my work). This is during the time when his wife was in late stage pregnancy and he needed to be home early. His devotion and sincerity to work was unparalleled. He never complained. He always helped in whichever was possible. Both Mia (his wife) and Ron are unexpectedly **easy-to-work** with personality.

There are so many incidences that I could recall to be grateful to Ron. He is very flexible and made my wishes list for home to work. I remember that I was in trouble to qualify for inspection and my heater and other things needed to be fixed quickly before the final inspection. I called Ron for his expertise. I knew that I could trust upon him to find the best solution. He made things work at 'no-time'. He works "FAST". Anything needed within quick time, you can depend on Ron.

Things needed any change or new project, he finds a best possible way always. I can depend on Ron without any 2<sup>nd</sup> thought. Since then, I keep calling Ron for any work that I need. He develops a business of **trust, faith and confidence**.

I believe that I could not live in my dream home without Ozair constructions's work. I do not know how I can reciprocate this help but I would remember this involvement in my house project for my life time.

I hope you enjoy working with Ron equally as I did. Should you have any questions, please feel free to contact me.

Thank you
